PROFILE

Experienced software engineer excited about building unique and engaging experiences. Passionate about code quality, maintainability, and efficiency.

EMPLOYMENT HISTORY

Senior Software Engineer, CoverMyMeds Remote
Jun 2022 — Present

- Served as security champion for my team, acting as a liaison with the security team for audits, penetration testing, software currency, and security vulnerability remediation
- Built the first node.js and react application at CoverMyMeds, which powers the majority of the provider-facing portal today

Software Engineer, CoverMyMeds Remote
Apr 2021 — Jun 2022

- Focused on the provider portal of CoverMyMeds, which helps providers submit prior authorizations for their patients
- Participated in a working group trying to get buy-in to rewrite our most critical apps in React to increase maintainability

Senior Developer, Nationwide Insurance Columbus, OH
Dec 2020 — Apr 2021

- Lead developer on the company's flagship billing application, responsible for processing thousands of payments daily
- Provided feedback and teaching through pull request reviews, pair programming, and one-on-one mentorship

Developer, Nationwide Insurance Columbus, OH
May 2019 — Dec 2020

- Performed build and run work for numerous applications allowing members to self-service their policies online

EDUCATION

Full Stack Development, Tech Elevator Columbus, OH
Jan 2019 — Apr 2019

13 week, full time, coding bootcamp focusing on the core principles of programming and modern web development technologies.
